

Plastic folders for Pallet Collars

Plastic folders for Pallet Collars

The back piece of the plastic folder is manufactured in a dark blue coloured, hardened to withstand low temperature, with a thinner clear plastic as a front.

We have manufactured our A5 folder 59010 00 since 1983 and it's still our bestseller. The plastic folders are manufactured with a form pressed folding – which provides a simple and stable attachment to the Pallet Collar.
