

Divider

Divider

With our dividers you will get maximum use out of the Pallet Collar. With a simple operation – and the pallet collar is separated into several compartments without damage to the Pallet Collar. You can create up to 16 compartments.

The dividers are manufactured from 12 mm thick plywood with strong hooks of steel. Model PE 1 has three groves with 280 mm in between, model PE 2 has three groves with 180 mm in between. Model PE 3 for half sized pallets has one groove in the middle.
